Headquarters and Headquarters Detachment, 4th Chemical Smoke Generator Battalion

REPUBLIC OF KOREA PRESIDENTIAL UNIT CITATION awarded by citation dated 31 July 1952, by Syngman Rhee, President of the Republic of Korea, for outstanding and superior performance of duty during the period 19 September 1950 to 31 July 1952, inclusive, with citation 'as follows:

The 2d Logistical Command (C) was activated on 19 September 1950 and given the mission of receiving and forwarding supplies to the Eighth United States Army in Korea and its attached units. This Army included more than twice the number for which the 2d Logistical Command was organized to support, yet the mission was accomplished in spite of additional handicaps such as terrain, climate, and lack of proper facilities. Under the direction of the 2d Logistical Command, thousands of civilian refugees were provided with food and clothing after having been evacuated from the Hungnam area in North Korea. Medicines and medical equipment were supplied the sick and wounded while orphanages were established for the Korean children who were afflicted by war's devastation. Additional support for the civilian population was made possible by the introduction of electric power barges in Pusan, Masan and Inchon, and by the installation of additional water-mains in the overcrowded city of Pusan. The 7th Transportation Medium Port handled more than twice the amount of cargo which its larger counterpart, a Major Port, is designed to handle, and other subsidiaries of the 2d Logistical Command distributed the cargo throughout Korea. The Chinese Communist spring offensive of 1951 was contained by the

 453d Engineer Construction Battalion
 467th Engineer Fire Fighting Platoon

Eighth United States Army in Korea and its attached units from all nations because it had been adequately supplied by the 2d Logistical Command over bridges, highways and railroads which were still being built or repaired. By April 1952 normal rail service had been restored on the Korean National Railway in the rear areas even though it was still a combat zone, and passengers could again travel from Pusan to Seoul in 11 hours. Another monumental accomplishment was the operation of Prisoner-of-War camps in which 170,000 prisoners experienced a standard of living surpassing the requirements of the Rules of Warfare as adopted by the Geneva Convention, and with security and sanitation measures of such high caliber as to protect the adjacent civilian population.

The efficiency with which the responsibilities of the 2d Logistical Command were discharged was due to the individual efforts of everyone concerned, and the resulting service, rendered to the nations of the free world, is in keeping with the highest traditions of the United States Army, the military service and the United Nations.

This citation carries with it the right to wear the Presidential Unit Citation Ribbon by each individual member of the 2d Logistical Command (C) and attached units who served in Korea during the stated period.
