Liaison Team, Advisory Team No. 2, Military Assistance Command Vietnam (for period 25 April 1967-5 June 1967)

The citation reads as follows:

For extraordinary heroism and outstanding performance of duty in action against the North Vietnamese Army and Viet Cong forces in the Republic of Vietnam, from 29 March 1966 to 15 September 1967, the above U.S. Army units, while attached to the First Marine Division (Reinforced), operating in the northern provinces of Quang Nai, Quang Tin, and Quang Nam, superbly executed the threefold mission of seeking out and destroying the enemy, defending key airfields and routes of communication, and conducting a dynamic pacification and revolutionary development program. Operating in the defense of the Chu Lai area, which grew from 254 square miles in March 1966 to 1,531 square miles by October 1966, the First Marine Division and its attached units extended protection and pacification to over one million Vietnamese without loss of continuity in operations. In canopied jungles, rugged mountains, and through swampy lowlands, the war was carried to the enemy. During eighty-seven major operations conducted in conjunction with 158,000 patrols, the First Marine Division and attached

units soundly defeated the determined adversary. The major offensive operations, carried out against entrenched and fortified forces, captured tons of rice and emancipated complete villages of the Vietnamese, while defensive actions resulted in a harvest of 7,620 tons of rice gathered by approximately 10,000 Vietnamese villagers, protected by Marine Forces. In March 1967 the Division deployed units to the Demilitarized Zone while continuing to expand its general offensive and maintain continuous pressure against the enemy. During the entire period, combat operations were made meaningful by simultaneous pacification and revolutionary development programs, which were extraordinary in concept and brilliant in execution. The First Marine Division's unrelenting combat spirit and initiative, undeterred by intensive enemy fire, monsoon rains, and incessant heat, inflicted massive losses on the enemy and denied him the political and military victories he sought to achieve. By their effective teamwork, aggressive fighting spirit, and many individual acts of personal heroism and daring, the personnel of the First Marine Division and attached units forged an illustrious record of sustained courage and professional competence, which reflected great credit upon them and upon the Armed Forces of the United States.

The ROYAL THAI ARMY VOLUNTEER FORCE and assigned and attached units distinguished themselves while engaged in military operations in the Republic of Vietnam from 1 December 1968 to 31 May 1969. Working in coordination with other free world forces to further the attainment of free world counterinsurgency objectives in the Republic of Vietnam, the Royal Thai Army Volunteer Force contributed significantly to the pacification of its tactical area of responsibility and denied the enemy the use of its food sources, its traditional infiltration routes, and its sanctuary areas. The Royal Thai Army Volunteer Force added immeasurably to the protection of the Long Binh military complex when it was threatened by attack during the 1969 post-Tet offensive. During this period the Royal Thai Army Volunteer Force inflicted heavy casualties on an aggressive hostile force and maintained the security of major lines of communication and of the populated areas within its operational area. By indomitable will and dauntless courage, the individual soldiers of the "Panther Division" successfully withstood the enemy's continual efforts to overpower Thai positions and regain control of the area. The outstanding performance of duty exhibited by the Thai fighting men and those who supported them, sustained through hazardous and difficult conditions, reflects great credit upon them and the Royal Thai Army.

exceptionally meritorious achievement in the performance of outstanding service during the period indicated :

**7TH PSYCHOLOGICAL OPERATIONS GROUP, UNITED STATES  
ARMY**

The citation reads as follows:

The 7TH PSYCHOLOGICAL OPERATIONS GROUP distinguished themselves by meritorious performance of duties during the period 1 April 1967 to 30 September 1968 in support of Free World Forces in Vietnam. During this period, the 7th Psychological Operations Group supported the Commander, United States Military Assistance Command, Vietnam by providing over 13 billion leaflets for dissemination in support of military operations, area pacification programs and the Chieu Hoi Amnesty Program. The leaflets provided were instrumental in increasing the number of enemy defections to the Government of Vietnam during the period April 1967 to September 1968. The development and continuing refinement of the technique of "high altitude leaflet dissemination" enabled the Group to drop leaflets on North Vietnam's major population centers to include Hanoi, Haiphong, Vinh, and the Red River Delta. This technique enables the aircraft to drop leaflets into favorable winds miles away from the target area, and yet insures that the leaflets will fall within the designated location. Thus, the aircraft and crew are able to avoid enemy fortified positions and there has not been a single aircraft or crew member lost while engaged in leafleting North Vietnam. The 7th Psychological Operations Group also provided a mobile radio and crew on temporary duty to enable broadcast of psychological operations messages to enemy troops in an area previously inaccessible to radio. The work of three Radio/Magazine Editorial Teams served to bolster the morale and fighting spirit of the Republic of Korea Forces, Vietnam. During the period cited, the 7th Psychological Operations Group also provided 35 officers and enlisted men on a temporary duty basis in support of Free World Forces in Vietnam. These men were instrumental in training selected personnel from Military Assistance Command, Vietnam, served as short term replacements in key positions, and thereby insured the success of the 7th Psychological Operations program in Vietnam. Throughout the cited period, the 7th Psychological Operations Group has rendered exceptionally meritorious support to military combat operations in the Republic of Vietnam. The service of the officers and men of the 7th Psychological Operations Group was in keeping with the highest traditions of the United States Armed Forces. Throughout its service, the unit reflected great credit upon itself, the military establishment, and the United States of America.

Disregarding unfavorable terrain, as well as modern and intense antiaircraft fire from well-fortified enemy trenches, the men of this unit have gallantly engaged in bloody battles in Phuoc Long, Binh Long, Tay Ninh, Hau Nghia and Bien Hoa Provinces, blocking infiltration by the North Vietnamese regular forces through the Cambodian-Vietnamese border in a timely and effective manner. Furthermore, this unit also intervened and repulsed enemy attacks against friendly forces, smashed many large-scale troop movements designed to shell and attack the capital city of Saigon during the Viet Cong Winter-Spring Campaign of 1968-1969, and neutralized the enemy military potential in secret zones, inflicting continuous personnel casualties and weapons losses upon the enemy. Throughout the 22 major engagements with the North Vietnamese Army and Viet Cong main force, as well as other thousands of small contacts, the 9th United States Infantry Division and its attached units caused heavy casualties to the enemy with intense fire support of artillery, armed helicopters and tactical air support.
